- 2 Special Tokens

Purse Lady: Liz Smartz

Ability: Steal

This fashionable purse lady may look innocent enough, but she has a few tricks up her sleeve — or rather, in her purse! Keep a watchful eye on her when she gets close.

- + Gain the *steal card* to use as an action card. You may also have up to three boosts at a time.

When you play the steal card, if your runner is adjacent to any other character, you may steal one of their boosts.

Pool Shark: Mike

Ability: Break Shot

This skilled billiards player never turns down an opportunity to play pool. When his friends invited him to play a “game,” he assumed they were referring to his favorite game, rather than capture the flag.

- + Gain the *break shot card* to use as an action card.

When you play the break shot card, if your runner is adjacent to any character (but not separated by a wall), move the other character up to two spaces away.

All normal movement rules apply, except that the character you are moving may end in a space occupied by another character, displacing that character, who you then also move up to two spaces away. You may repeat this effect until you have displaced each other character once or until you are not close enough to displace any other characters.

While resolving the break shot, ignore all tunnels. Afterward, you may move any other character on a tunnel to any other tunnel. If multiple other characters are on tunnels, bump all of them one space away instead.

Writer: “Scripps”

Ability: Banana

This fantasy writer often becomes so engrossed in his writing that he can't be bothered to perform basic actions. Instead, he sends his pet monkey “Nibbs” to carry out his wishes in exchange for bananas!

- + Gain the **banana token** to use as a priority token. This may be used only once.

When you play the banana token, perform one of the following actions:

- ▶ If your runner is up to two spaces away from the opposing team flag, you may take the team flag and place it on your runner.
- ▶ If your runner is up to two spaces away from an opposing character, collect one of their character flags.

NOTE: *Both of these are valid even if there is a wall, another character, or a trap between your runner and the target.*

You do not resolve your selected action card (though it remains face up until the end of the round and may be the target of a copy card that you play); your card was simply a placeholder to keep your move secret.

Singer: Lyrical Lynn

Ability: Sing

This singer loves to share her vocal talent with others. The only problem? She sings so loudly that everyone has to stop what they are doing and cover their ears!

+ Gain the *sing token* to use as a priority token.

When you play the sing token, no flag cards played by any player during this move will take effect.

When it is your turn to move your character, resolve your action card's effect once (unless you played the flag card).

INSTRUCTIONS

You may use any of these four characters in place of any characters from the base game.

- ▶ The *flag stands* hold flags at game start and when no pawns are holding them.
- ▶ The wooden *boosts* and *fences* replace the original boost tokens and walls.
